The hunter cooked the deer and ate the meat all by himself. The dog was very tired after the struggle with the deer. The hunter gave the dog only some bones and deer hide. The dog was very disappointed at his master.

4. The hunter rewarded the dog with pieces of meat

The master realized how bad he treated the dog. The master asked for forgiveness. He gave the dog pieces of meat to reward the dog's hard work. The dog ate the meat but he never spoke to his master again. From then on all dogs stopped talking to people.
